Sound Of Life - J.E.Moores © Feb. 1996

D- = XXX2X2

```
          C                  D-       A/3
Well it really doesn't have to be
  C           D-        A/3
Only just you and me - there's a
  C       D-          A/3
Shiny bright big world
C    D-                A/3
...      Waiting to turn.

       A/3                              D        +(hammer G string while holding D chord)
The lights in town are burning bright on me
A/3                        D            +
City streets setting all of us free
A/3              D                    A/3  -  D
I turn around to the sound of life.
                 A/3
The future's calling.
                 D
The future's following you, through
        A/3            F
Hazy days, crazy ways
                    A/3
What should we do
                  F
To reveal the truth
                A/3
And follow through
```
