Nothing Holds Me Down - J.E.Moores © Jan. 1996

```
Em                        G
Put me through your petty hell
F                      Em
I'll come out with my sweet smell
Em              G
Dish me out hatred and shit
F                       Em
I'll show you how I laugh at it

chorus

Em                    Am/1        E/2
Nothing holds me down - me down - me down - me down:
   Am/1                          E/2
I float through sky - never touch the ground.

Em                F
You can try - you won't hurt me
Em                    F
Time will tell - all truth will see
Em             F
I possess a philosophy
     Em                            F
For I am the one who set me free!

[chorus]
```
