---

A/2            D  
Yesterday's tomorrow  
                  A  
Has become today.  
      A/2        D  
The path of time  
                  A  
Has pushed you away.  
A/2            D                    A  
Now I'm on this road and I'm all alone.  
A/2            D                    A  
Where am I going, where have you gone?

A/2                    D  
'Cause I know I can almost see it  
A                      Em  
And you're already there.  
A/2            D  
But is it a destination  
A            Em  
Or is it no where?  
                  G  
Am I heading no where?  
                  D        A        G  
Am I heading any where?

D - A - G

D        A                    G  
Every decision is the right one  
D            A                    G  
You can't make a mistake.  
D        A        G  
Even all the wrong ones  
                  D        A        G  
Have their place.            [x2]
