

## Eyes Do See - J.E.Moores © July 1990

---

Em            Am  
Why do you talk to me  
A/2                    A/3  
Words don't say what eyes do see  
      Em                    Am  
I'm closing mine to all that is  
      A/2                    A/3  
I will not see this, cannot see this

      Em                    Am  
You stand in front of the morning sun  
      A/2                    A/3  
A silhouette, my little one  
Em                    Am  
How I love to watch you move  
A/2                    A/3  
But I hate to set you loose

E/3 - E/2 - F - E :  
      Woh Eeee Oh Woh Eeee Oh [end here second time through]

Em                    Am  
I guess I know the shifting winds  
A/2                    A/3  
Gather together distant friends  
Em                    Am  
But they also rise and blow  
A/2    A/3  
So I watch them go

[return to top]
