

## **Gargon the Conqueror** by J.E.Moores

          C      G                  F  
How I wish I was Gargon the Conqueror  
          C                  G  
Defeating foes – righting woes  
          F  
A great big hero  
          C                  G                  F  
I would rise up and rescue you – you and your kin  
          C                  G  
Save 'em once – then save 'em again  
          F  
Your friend in peace and war  
          C  
Gargon the Conqueror

          C                  G                  F  
Thick and wide - but he's a softie deep inside  
          C                  F  
A teddy bear with battle scars  
          C  
Gargon the Conqueror

          F                                  C  
We love you – where ever you are  
          F                  C  
Run to your side near or far  
          F                  C  
Gargon – we love you  
          F                                  C  
If there was one thing I could do...
