

## **Nurse**y by J.E.Moores

F                    Am  
Nurse'y's so bossy

                                 G  
But she's good at her task

F                    Am  
A little more lotion

                                 G  
Is all that I ask

F                    Am  
I'm stuck in this wheelchair

                                 G  
The rest of my life

F       -       Am  
How I wish Nurse'y

                                 G  
Was my loving wife

D  
Suds me up with soap and lather

G  
Sponge me down with lukewarm water

D  
When I look into Nurse'y's eyes

                                 G  
All I see is hope

D  
She knows I am the O.G. Gangster

G  
That stands for Old Geriatric Prankster

D  
She knows I was very hip

G  
Before I replaced it
