Many had speculated, upon her whereabouts

Seen headin' west down route one south

Gonna shout, gonna shout out, what life's about

So many friendly faces, aligned with street signs

I know I could fall in love in every town

Gonna shout, gonna shout out, what life's about

Newspapers, scattered facts, blowin' through empty alleys

I wonder if I'll read an article about you

Gonna shout, gonna shout out, what life's about

Calling information, hotels where you've been and left

Following closely the footsteps of your trail

Gotta find, gotta find out, what life's about
